## FOREWORD

---

Coin Galleries Public Auction Sale of November, 1962, proved to be the outstanding success we had expected. Dealers from England, Holland, Switzerland, Sweden, and as far away as the West Coast of the United States, were present to bid in person or on behalf of their clients. We are glad to say our first Sale for the year 1963, will be followed by others in the Autumn. We already have consignments on hand of a varied nature which will certainly attract the interest of Collectors of Ancient and Foreign Coins. In accordance with our policy, these Sales will also include gold and silver United States coins.

The opening Session of the present Sale can be divided into two sections. The first comprises coins from the George Baer Hiester Estate, sold by Order of the Executor, THE READING TRUST COMPANY, of Reading, Pennsylvania. The late Mr. Hiester was particularly interested in United States Commemoratives and Hawaiian material. His Commemorative Half Dollars are impressive in both quality and quantity. But perhaps the most unusual part of his collection is the almost complete group of Hawaiian Coins, Tokens, Proofs, Patterns and Medals. These pieces have been listed in accordance with Gould and Bressett's useful Monograph on the series, published by Whitman. There is also a small number of U. S. Type coins, Commemorative Gold, and Foreign Crowns.

The second part of the opening session is devoted to the United States silver, Foreign silver, and minor coins, in a consignment received from Canada. The run of early Silver Dollars and Half Dollars is most extensive. The Collector of Foreign and British Commonwealth coins will not want to overlook the unusual offering of South African pieces, including the very rare proof sets of George V, dated from 1931 to 1936 inclusive, to be sold with their original cases of issue. Associated with this material will also be found a small number of United States Gold coins in various denominations.

The second, and final Session, to be held on Saturday afternoon, May 25, can also be broken down into two sections. The first is largely devoted to a wide selection of Ancient coins. The Decadrachm of Syracuse carries the word ATHLA, showing that it was struck to give as a prize in the Olympic games. There are five different types of the very rare Aurei of Julius Caesar and exceptionally nice examples of the Judean Shekels of the First and Second Revolts. Nevertheless, this section presents an opportunity for the Collector of moderate means to make some interesting acquisitions. Following the Ancients, there is an offering of Talers and Multiple Talers, as well as Russian, Mexican, Filipino and Puerto Rican coins.

In this section will be found the second part of the Canadian consignment, consisting of over four hundred lots of choice Foreign Gold coins. The French series runs from the Louis d'or of Louis XIII to the issues of the Third Republic in all denominations. Perhaps the highlight of this part of the Sale, however, is the great quantity of English Guineas and later issues. The Commonwealth Gold coins are particularly extensive and include, among others, an Adelaide Pound of the first quality and a long run of Sovereigns. Among the modern German coins are found a few fine Proofs of the Empire. In addition, there are some exceptionally fine Italian coins in superb condition, including 15 Ducat pieces of Ferdinand I and Ferdinand II of the Two Sicilies, as well as a number of Papal coins.
